

Welcome to SESS eLearning

Webcast: 'The Metacognitive Teacher and Learner: An Introduction to Metacognition in the Classroom'

This webcast examines the important role which Metacognition can play in learning and teaching. It has four main sections:

1. What metacognition is and why it is important in teaching and learning
2. Metacognitive strategies for use by students and teachers
3. How metacognition can benefit students with special and additional learning needs
4. Ideas on how to implement metacognition in schools

'Evidence Informed Instructional Interventions for Students with Autism Spectrum Disorder'

Special Education Support Service (SESS) is promoting autism awareness by highlighting both resources and evidence informed interventions to support the learning and teaching of students with autism in Ireland.

SESS has developed a video (20 mins) to demonstrate a number of evidence-informed instructional interventions that teachers working with students with Autism Spectrum Disorder in Ireland may draw upon to promote and facilitate development and learning.
