

An Introduction to Autism (Primary)

Summary Description

The seminar is designed for Primary Principals and Teachers who are currently working with a child diagnosed as having Autism. The seminar provides an understanding of Autism and how this affects the pupil's ability to learn and develop social skills. It also focuses on assessment and strategies to enable inclusion and access to the curriculum.

Anticipated Outcomes

Participants will:

- Develop an understanding of Autism & the challenges pupils with Autism can experience in mainstream classrooms
- Examine the unique learning styles of pupils with Autism
- Discuss assessment and practical strategies to enable the inclusion of pupils with Autism
- Engage in the practice of planning for pupils with Autism
- Explore methods to support pupils in acquiring social skills
- Develop an understanding of approaches & strategies for eliminating challenging behaviour and developing adaptive behaviour

Course Outline and Content

- Overview of Autism and the challenges experienced by the pupil with Autism.
- Brief historical background, psychological theories and additional difficulties associated with Autism
- Overview of assessments, IEPs and curriculum differentiation
- Understanding challenging behaviour and strategies to develop adaptive skills
- Strategies such as developing social skills, structuring the learning environment, work systems, using timetables and visual supports
