Classroom Resources: This section is split into three component parts:

1. A variety of worksheets on the topic of **Money**,
2. Some sample worksheets on **Measurement** (length, weight, capacity), and
3. A number of different versions of the **100-square**.

Note: The worksheets included here are samples only, they are not a scheme of work, and there is a wide variation in the level of difficulty. Please feel free to adapt and edit to best suit your own needs and the needs of your students.

Also remember, where possible, to use real materials e.g. coins, objects, maths equipment, etc.
