

Transitions

Transitions can be particularly challenging for all students and can pose even greater levels of challenge for students with special educational needs. Good planning and support for transition helps to ensure the successful transfer of students from early childcare and pre-school to primary school, from primary school to post-primary school and from post-primary school to further education settings.

- Early Childcare and Pre-School to Primary School
- Primary to Post-Primary
- Post-Primary to Further Education, Employment and Training
