2. Aim and Content

The aim of the programme is to develop teachers' knowledge and skills in working with pupils with special and additional learning needs in mainstream classrooms.

On completion, a qualification of Certificate/Diploma in Education will be awarded by Dublin City University. Participants will be assessed on the basis of participation in the online teaching/learning environment, the completion of tasks and a written assignment (2,500-3,000 words) per module. Further details may be obtained from **(01) 8842025 E-mail: admissions.office@spd.dcu.ie**

3. Duration and organisation

The programme is delivered in a modular format using a blend of online and distance learning technologies and pedagogies. The duration is flexible to suit the needs of individual participants. The Certificate consists of four taught modules and must be completed within 3 years from first registration. The Diploma requires an additional module, unassessed, on research methods and a dissertation of 7,500/8,000 words, on an agreed topic, which must be completed within 4 years from first registration.

The structure of the course permits students to complete a maximum of three modules per year. Upon successful completion of this module participants will choose from a range of modules focusing on different aspects of special educational needs including: Mild General Learning Disabilities, Dyslexia, Autistic Spectrum Disorders and Challenging Behaviour.
